The German Entrepreneur Award – Facts and figures

The German Entrepreneur Award

The German Entrepreneur Award is the country's most prestigious acknowledgement of entrepreneurial excellence and achievement. It acknowledges exemplary achievement in emerging start-ups as well as developing innovative and viable business ideas. Its aim is to foster a positive entrepreneurial environment in Germany and encourage people to go into business.

The German Entrepreneur Award is awarded annually in four categories: Student, StartUp, Rising Star and Lifetime Achievement. It recognises exemplary entrepreneurial performance across the board – from student projects to established businesses. There is also a Special Award for exceptional accomplishment.

The partners stern magazine, Sparkassen, ZDF and Porsche bestow the German Entrepreneur Award. Three of the partners have been involved in fostering and cultivating an entrepreneurial and start-up culture since 1997; Porsche came on board in 2007. The Federal Ministry for Economy and Energy as well as other reputable sponsors support the German Entrepreneur Award.

The categories

The Student category recognises young people who have taken part in an internet-based contest to transform their ideas into a hypothetical business concept.

The StartUp award acknowledges entrepreneurs whose businesses have been running from one to three years and have achieved exceptional market success.

The Rising Star Award distinguishes those entrepreneurs whose companies have achieved phenomenal market growth and have the potential to become market leader. The companies must be between four and no more than nine years old.

The Lifetime Achievement category honours entrepreneurs who have created at least one successful and sustainable business in Germany with an exemplary corporate culture. Award winners operate on an exceptional level to promote social responsibility.

The Special Award recognises entrepreneurs who have successfully overcome business challenges in unorthodox ways.

The award ceremony

The German Entrepreneur Award ceremony 2022 will take place in Berlin on 13th September 2022. Winners receive their awards at a gala event attended by leading figures from business and politics. The finalists and winners from each category appear in a programme on ZDF (television) and articles in Stern magazine and on stern.de.

The ten best teams in the Student category will be honoured in a national award ceremony in Hamburg on **23 June 2022**. The winning team will also join the other award winners on the stage at the gala event in Berlin the 13th September 2022. At the Gründerpreis Experience in September winners one to five will be able to take part in a four-day hackathon, an event where students meet real start-ups, get the opportunity to exchange experiences and deal with real problems the companies are facing. Those in sixth to tenth place can look forward to be part of the Gründerpreis Innovation Lab, an event in which students gain an impression how to develop ideas into rudimentary prototypes and what the following development steps will be.

Award winners and finalists in the StartUp and Rising Star categories will receive a consulting package tailored to their own individual needs at Porsche Consulting GmbH, media training. The German Entrepreneur Award's advisory committee members will also offer their expertise in a two-year mentoring programme.

The selection process

The German Entrepreneur Award for Students is given to the best teams in Germany's biggest online business simulation contest and is open to young people aged 16 or over.

Potential candidates in the StartUp, Rising Star, Lifetime Achievement and Special Award categories are recommended by a network of experts, who conduct a nationwide search for companies that might fit the bill, or can submit their application via the official webpage. The three best businesses in the StartUp and Rising Star categories are then nominated for a German Entrepreneur Award. A distinguished panel of judges chooses the winner.

The German Entrepreneur Award and the network behind it

The German Entrepreneur Award is presented in cooperation with partners from the magazine "stern", Sparkassen (savings banks), ZDF (German national public television broadcaster) and Porsche. Germany's national award for outstanding entrepreneurship highlights exemplary businesses at different stages of the business life cycle – from the seed stage to lifetime achievement. It aims to promote a positive and encouraging entrepreneurial environment in Germany.
